

FLEX ONLINE SAT II Math Intensive

TARGET: October 3 Exam

FLEX SAT Subject Math helps students reach their highest score potential through:

- **Strategy Classes.** FLEX Instructors strategically review the major topics covered on the SAT2 Math exam. Program materials and resources include study guides and quizzes, and previous SAT2 Math exam questions.
- **Exam Review Sessions.** FLEX Instructors reinforce strategy and concepts through review of a weekly assigned SAT2 Math exam.
- **Diagnostic Testing & Progress Reporting.** Students will take a diagnostic test at the end of the program to give students a predicted SAT2 math test score. When available, real exams from prior years are used.

Meet the Tutor!

Math: Mr. Philip B.A. in Mathematics and Electrical Engineering from Stanford University. Mr. Philip has over a decade of teaching experience at FLEX.
